**Attachments:** Formaldehyde- MS\_26Jan2016.docx; Formaldehyde MS Supplemental Material\_Jan 2016.docx

I think I have the general structure down for the manuscript and supplemental material. EHP has a word limit of 10,000 words (including tables and references); this is about 7000 with the tables but without references, and with a few holes in the text, so it's probably OK but could use trimming. Please read for general flow and content, but don't worry about details (I know there are things to correct). Have a good time in Texas.

Glinda
